

Instruction – Crumble technique

Cut stripes with a width of 4 cm out of the crepe paper

Tear off approx. 4 -5 cm long pieces from the stripe and crumble it. Not too tightly:

peacock blue: for the sky, the door and the windows,

yellow: for the house and the way,

red: for the roof,
the flowers in the
garden and the
garden wall,

bright green: for
the lawn,

white: for the
clouds.

Now you can coat
a part of the motif
with glue, press
on the crepe pa-
per balls and push
them closely to-
gether. Continue
as described befo-
re until the whole
motif is glued.
